HEAR WHAT OUR CUSTOMERS HAVE TO SAY

“ I was at my wits end with hot flushes and night sweats. I was regularly having to get up in the night and change my PJ's/nightie due to the excessive sweating. My job involves coaching and facilitation of large numbers of professional workers and it was increasingly embarrassing to be flushing during working hours when the essence of my job is how to communicate with confidence. The flushes made it appear that I was embarrassed which was not the case but I had no control over the flushing.

I discovered Physicool on the internet having read reports that it helped with night sweats and flushing, it has been quite literally a life saver. I use it daily and it has made a huge impact on my conditions, reducing the number of hot sweat incidents and instantly cooling hot flushes.”

HOW TO USE

- Spray the **chest** and **neck** area with **3 or 4 pumps**
- Allow **good air flow** for the **evaporation** to work
- **Reapply** as needed
